

Alfredo Rodrigo

UNDERGRADUATE | BINA NUSANTARA

OBJECTIVE

As a fifth-semester Computer Science student, I am eager to apply my growing knowledge in coding and UI/UX design while gaining hands-on experience through the Apple Developer Academy internship program. I aim to contribute with creativity, teamwork, and problem-solving skills, while continuously developing my technical expertise and professional growth within an innovative and collaborative environment.

EDUCATION

2023 - Present | BINA NUSANTARA UNIVERSITY

Computer Science

2020 - 2023 | SMA STELLA MARIS

Science

EXPERIENCE

Student Council | Spiritual Division

VOLUNTEER EXPERIENCE

2025 | Computer Learning Guidance for Elementary Student

- Taught basic computer skills to elementary school students, such as Microsoft Word and PowerPoint
- Introduced students to essential digital literacy concepts
- Encouraged confidence and creativity in using technology

2024 | Socialization & encouraging student participation in building justice

- Conducted socialization sessions to motivate students to actively participate in fostering justice within the school
- Encouraged students to voice their opinions and contribute to fair decision-making processes
- Organized interactive activities to promote awareness and responsibility in building a just school environment

2023 | Socialization of social justice in schools

- Conducted socialization sessions in schools to promote awareness of social justice values
- Encouraged students to understand and practice fairness, equality, and respect within the school environment
- Facilitated discussions and interactive activities to strengthen students' awareness of social harmony

SKILLS

I possess a foundational knowledge of coding, complemented by skills in designing intuitive and user-friendly UI/UX interfaces. I am highly capable of collaborating, communicating, and coordinating effectively within a team environment, while also being able to work independently when required. In addition, I have proficiency in English, spoken and especially in written, which supports effective interaction in diverse professional settings.
